Robert K Merton Social Theory

The philosophy of science of Robert K. Merton (1910-2003) is dated from the perspective of the contemporary pragmatism prevailing in today's academic philosophy of science; see: philsci.com. But Merton is still ahead of his time relative to today's academic sociologists, who construe sociology as social psychology.

Social Theory and Social Structure: Merton, Robert K ...

In Robert K. Merton In Social Theory and Social Structure (1949; rev. ed. 1968), Merton developed a theory of deviant behaviour based on different types of social adaptation. He defined the interrelationship between social theory and empirical research, advancing a structural-functional approach to the study of society and creating the...

Social Theory and Social Structure | Robert K. Merton ...

The basic idea of Robert K. Merton's anomie theory is that most people strive to achieve culturally recognized goals. A state of anomie develops when access to these goals is blocked to entire groups of people or individuals. The result is a deviant behaviour characterized by rebellion, retreat, ritualism, innovation, and/or conformity.

Robert K. Merton's Self-Fulfilling Prophecy In 1948, Merton used the term "self-fulfilling prophecy" in

an article. He framed his discussion of this concept with symbolic interaction theory, which states that, through interaction, people bring about a shared definition of the situation in which they find themselves.

Examples of Self-Fulfilling Prophecy in Sociology

Robert Merton's theory of social structure and anomie seeks to explain deviance. In this theory, Merton believes that deviant behavior is due to conditions in the social structure. Society creates a strain between culturally prescribed goals and the socially structured means to achieve them.

Blog 5: Robert Merton: Social Structure and Anomie | SOC ...

Another theory attributed to Merton is the self-fulfilling prophecy. It states that prediction comes true because people believe in it and, in fact, make it happen. Robert K. Merton developed this concept from W. I. Thomas' "definition of the situation," i.e., "If men define things as real, they are real in their consequences."
